

WI Bursaries

With the demise of Denman College, as winners of a WI bursary LRFWI members may find the information below about educational providers useful. It is not comprehensive, but offers a starting point. Those taking up bursaries should get their choice of provider approved by their WI.

Please forward any further recommendations, approved by your WI, to myself.

Ginger Cat Glass: Glass Fusing Workshops with Vanessa Thompson Lowe

<https://gingercatglass.co.uk/>

Ginger Cat Glass has a workshop and studio in Leicestershire where I create handmade fused glass giftware and art. The glass I use in my work is bullseye glass, this is a handmade glass imported from Portland Oregon USA. I use a variety of sheet, stringers and frit glass as well as inclusions of copper foils, wire, metals and silver leaf to create beautiful and interesting pieces of art work.

Come along to a workshop and learn to make and design your own creations in glass. Workshops are designed for beginners and children. All instructions given and individuals catered for, a minimum of 2 and a maximum of 8 per class.

Workshops

Learn to score and break glass to make decorative shapes and designs with coloured, clear glass, glass frit and stringers. Once you are confident to cut your own glass then you can then begin to design your own piece. These will then be heated in a kiln to produce a smooth or textured look dependent on the heat applied and the finish required to suit your work (kiln work will be done after the class and will be usually ready for collection within approx. 7 days). All basic materials are included in the cost of the workshop. Closed toe shoes must be worn.

£35 per person for a 2 hour workshop.

You will be able to make either:

- ◆ coasters
- ◆ a sun catcher
- ◆ a curve or wave
- ◆ a small bowl

Should you wish to make more items then a further charge for materials will be incurred.

Willow Workshops – Kate Morrell

<http://katemorrellwillowworkshops.co.uk/workshops/>

If you want to experience something different, my workshops are a great way to get “hands-on” with this traditional craft in the company of new friends

The courses run from 10-4 and weather permitting we can work outdoors in a beautiful quiet relaxing location. The workshops are relaxed and friendly and there is a light lunch provided and as many drinks as you require throughout the day.

I will take you through the process of weaving your chosen subject and will help you to achieve it in the time given so everyone goes home with a finished sculpture.

About the workshop

Duration: 10am – 4pm

Price: £80

Learn to sculpt your own small willow animal in the grounds of my home in the beautiful setting of Donington Le Heath. We can work indoors or outdoors (weather permitting). Come and join me for a fun and relaxed informal day willow weaving.

To start off with I would recommend a small animal or bird as the craft is very time consuming and I want you to leave with a finished piece of willow sculpture. I will show you the techniques I use to make the sculpture from start to finish and feel free to bring along any pictures to work from or I can print a picture of your choice as a reference for you to work from when you arrive.

Please email me with the date you are interested in.

What's included in the price?

Tea/Coffee and a light lunch will be provided throughout the day and materials are included in the price. We are close to Kelham Bridge nature reserve if you fancied a short walk on your break. I would recommend that you chose a small sculpture to start with and if you could think about what you would like to make and advise me it would be very helpful so I can plan your day.
